

Le Clos Rosé - Terroir Basalte

2021

2021 will be remembered as a special year, marked by a strong meteorological instability.

The general state of the vineyard was difficult to maintain, and it is at the price of constant efforts and increased vigilance that we were able to preserve all the qualities of the vineyard.

The 2021 vintage is rather late but the sanitary state of the berries is very good, although smaller than the previous years, their sugar content is remarkable, and the cool nights allowed to keep high levels of malic acid and a beautiful phenolic maturity. These unusual climatic conditions offer us a surprising vintage, with an exceptional minerality and freshness.
